

KEMI LAMINAR AIR FLOW CABINET

Product Description

Kemi offers a comprehensive range of high performance Vertical & Horizontal Laminar Air Flow clean air cabinets. These are designed to meet the filtration, noise and vibration requirements.

AIR FLOW

Laminar Flow principle involves double filtration of air, Atmospheric air is drawn through highly effective HEPA Filters having efficiency rating as high as 99.99% with cold DOP and 99.97% with hot DOP either horizontally or vertically as per the requirement.
